

Earth First!

action update

No compromise!

number 4 June 1993 20p

The Debt Crisis

10th May Three banks in Leicester were the focus for protests about the High Street Banks' involvement in the continuing 3rd World Debt Crisis. About 60 activists dressed as chickens, parrots, tomatoes, and various other animals and vegetables wandered into Lloyds, Barclays and Midland and chained themselves inside the banks. Others handed out leaflets, fixed banners and banged drums. All three banks were closed early and Lloyds was occupied until demands and questions faxed to head office were answered. Lloyd's involvement in the destructive Grande Carajás project in Amazonia was made public for the first time, and information was obtained suggesting that Barclays' involvement in 3rd World Debt is much larger than shareholders have been led to believe. Another action is planned July 9th in Nottingham, workshops on 8th July. Contact LEAF for further details on 0533 621 2317. For information on the debt crisis contact Lloyds and Midland Boycott, c/o Manchester University Students Union, Oxford Road, Manchester, M13 9PR tel: 061 275 2930.

SKYE BRIDGE ACTION CAMP

Despite a court interdict protestors managed to disrupt work on the 2nd June - the first of a series of days of action planned for the summer. People climbed around all over the place, up tower cranes, over excavators, along cables and on to work barges. Two inflatable dinghies blocked contractors' vessels. Contractors tried to ram the boats and even attacked a boat being used by the press. Eight activists were arrested, and placed on ridiculous bail conditions not to go within 5 miles of the construction site. There is a lot of local support for this action in Skye. A new camp has been set up and the next day of action is planned for the 30th June. Further information from Oxford E&I Actions will continue all summer until this bridge is stopped!

CARMAGEDDON

The 15th May International Day of Traffic Action was the biggest ever this year, demonstrating the growing demand for building climate alliances between countries of the north with those of the south. The day of action highlighted the inequality in CO₂ emissions between north and south. Ten actions took place in Britain, focussing on local problems with a global overview. Actions took place in Birmingham, Bury St. Edmunds, Edinburgh, Leeds, London, Newcastle, Norwich, Oxford, Winchester and Worthing. Actions also took place in over 50 countries including Bangladesh, Sweden, Sierra Leone, Trinidad, Uganda.... For more details contact Reclaim the Streets Action Network, 071 737 0100.

SHIPACTION

A ship action aiming to blockade shipments of mahogany is planned for the near future, as part of the UK Mahogany Campaign. The port is as yet not determined. Anyone wanting to help with the organisation of this action, or for further details please phone 0865 201706.

Twyford Rising

1st -3rd May A weekend of Beltane madness. Work stopped on three sites by 150 people. Many machines mysteriously break down in sympathy with the plight of the landscape.

22nd May Operation Greenfly! A hugely successful action with 200 protestors peacefully occupying the site of a temporary Bailey bridge assembly, despite a huge police and Group 4 presence. When activists politely refused police requests to come down off the bridge they were arrested and dragged away one at a time. 52 were arrested in total and charged with public order offences. Massive media coverage!

High Court Injunction On 26th May, Mrs Justice Ebsworth made orders for an "Interim Interlocutory Injunction" on 74 protestors. It forbids them to protest on or near the M3 destruction site. The temporary orders are designed to "safe-guard" the work sites against further "nuisance" until **21st July** the first day of the three day hearing. Please come and support the defenders of the Down!

The protests at Twyford have already cost Tarmac £1.75 million - a clear statement to construction firms not to take on environmentally destructive work.

Future actions:

16th June A medicine man from the Lakota indigenous nation of North America wants to meet everyone fighting for our ancient spiritual heritage. He wants to perform rituals, perhaps in Oxleas Wood, to awaken the land and the warrior spirit in us all. Contact Twyford Down Alert for confirmation.

3rd July A massive action planned to get everyone on the injunction (and 3,000 others) to defy the legal system which fails to enforce its laws to protect the land yet punishes those who stand up to the planet wreckers. Stuff the injunction!

Summer Camp A week long Summer action camp one or two weeks after Glastonbury at a place to be confirmed.... Twyford Down Alert have moved - please note the new number.

Contact Twyford Down Alert for further details: 0703 611561

Valley of the ASPE

Since the court case in Pau on 2nd December 1992 declaring the road works illegal, an Environmental Impact Assessment has been carried out. This states that "the improvements to the road and the building of the tunnel do not constitute in any way the key to the survival of the bears"! Work is due to restart on the road in June. Ecotopia (1st to 21st August) will be in an adjacent valley and actions are planned from there in the Valley of the Aspe. For information on Ecotopia, contact Bureau Ecotopia, Maleyechard d'en Bas, 09350 Castex, France tel: 01033-61 69 85 53. For information on the campaign in general contact Oxford EFI, and for news from the Valley, contact Eric Petefin, La Goutte D'Eau, Cette Eygun, F-64490, France tel: 01033-59 34 78 83.

Rail not Roads

National march and rally being organised by ALARM UK as part of its campaign against the Government's £20 billion National Railbuilding Programme. Bring your banners, your music, your songs... or just yourselves! Saturday 26th June. Assemble at the Department of Transport, 2 Marsham Street, SW1 at 11.30am and march through London to Euston for the "Rail not Roads" rally. For more information ring 071 737 6641.

Tesco Action

25th May To protest at the opening of the notorious Golden Hill Tesco supermarket actions were held in Bristol. Tescos hired 200 Group 4 security guards for two weeks to prevent actions taking place. Undeterred, about 100 protestors turned up and several attempted to re-integrate the store into its environment by covering the site with manure and leaves, resulting in eight arrests. A local boycott and picket is proving very successful and the campaign will continue in strength. Meanwhile Manchester EFI did a trolley run in their local Tescos. After loading the trolleys with the crap that is on sale in Tescos, some were abandoned while others were fed through the checkout. Once the bill was added up the EFers refused to pay in solidarity with Golden Hill. There is a lot of sympathy for the environmental cause against Tescos, even from people who work there. Leaflets advertising free food have spontaneously appeared at new store openings. Bar codes have mysteriously changed on expensive items to read out very cheap prices. It is rumoured that outbreaks of cockroaches may soon be common in Tescos stores. Tescos plan to build one new supermarket per month - don't wait for future days of action!

sos Roads

In Oxford local opposition is growing to the North Oxford bypass and the Barton bypass. An umbrella group called "SOS Roads" has been formed with huge local support to oppose both roads. A vote in a recent Council meeting was almost 100% in favour of a motion opposing the roads.

Wensum Valley

1st August Andersons Meadow, NORWICH. To promote the Wensum Valley and protect it from a proposed road, the Save Wensum Valley Campaign will be holding a third "Music on the Line". Bands, acoustic tent, Reindeer Brewery, stalls, buskers, jugglers, food etc. and 4 to 5,000 people! Further details from Mark Simon, 39 Exchange Street, Norwich NR2 1DP.

Green Revolution

13th to 16th August Summer camp to work out tactics and strategy for the forthcoming revolution. To be held at Grovers Bridge, Grigg Lane, Headcorn, Kent. FREE! Contact Derek 0225 412628 for further details.

Earth First! Gathering

7th - 10th May The EFI gathering finally happened, in May, in Leicester. It was desperately needed, brilliantly organised by LEAF, and a splendid time was had by all. Full details of decisions reached will be published in the next issue of "Do or Die", available from South Downs EFI. One decision made very easily was that we need to hold gatherings more frequently - the next gathering will be on the 11th and 12th of September at Earthworm in Shropshire. Contact Notts FIN/EFI for further details.

Timbmet

24th May A protest at Timbmet timber yard in Oxford took the campaign to ban Mahogany a step further. Brazilian TV, filming at the action, broadcast footage of Timbmet's owner declaring that "life in Brazil is cheap" - showing the people in the South the attitude of the North's capitalist scumbag traders. The station's phonelines were jammed and protests erupted in Brazil as a result. It was a long, sweaty, tiring day - and tempers frayed. The demo highlighted a few problems and omissions in the organisation of the action, from concensus decision making to facilitation on the day. (Things to be discussed further in "Do or Die" and at the next gathering, perhaps?) However, good things were achieved: media coverage was excellent and the yard, and its nerve-centre the office, were totally shut down for the day. The pressure must be maintained to push the message home:

MAHOGANY IS MURDER!

Clayoquot Sound

1st July International Day of Protest in support of Clayoquot Sound, Canada. Action planned outside Canada House in London - if you can't make it to London, you can plan local support actions. Please contact Nitya at Earth ARC (0865 201 706) for further information, leaflets and materials.

mahogany action week

7th June to 14th June Part of the UK Mahogany Campaign in support of the Brazilian coalition against the mahogany trade. A week of actions around the country aiming to get the message over to the public that Mahogany is Murder. Actions will include trolley runs in DIY stores, timber yard blockades, furniture shop disruption, fasts, vigils etc - it's up to you! Further information on the Mahogany Campaign on 0865 201706.

Partnerships for keeping things very much the same

20-22 September. This is one of John Major's commitments made at the Rio Summit last June. 'Global Forum 94' will be the final extravaganza, to be held in June 1994. Partnerships for Change is a three day conference at Manchester Town Hall with three themes: sustainable communities, sustainable enterprise and sustainable citizenship. None of the issues we care about will be mentioned. Manchester EFI is inviting all radical environmentalists to come to Manchester and monkeywrench the hell out of the conference. Accommodation for about 500 and food at cost price will be provided. Manchester EFI is asking groups to come with their own affinity groups and ideas, although they do have one or two ideas of their own. The action number is 061 225 7128. Manchester EFI wants the biggest assembly of radicals, Hunt Sabs, Animal Rights, Dongas, EFers, Peace activists ever seen in one place - so network everywhere.

LEVITT HAGG WOOD
Doncaster EFI has appealed for help, actions, media etc. to save Levitt Hagg Wood from a land fill plan. The site is apparently not sound - it is fissured with cracks, and there is a river below it.... Further details from Doncaster EFI - messages can be left for Dennis on 0302 739 514.

JESMOND DEAN

170 trees, including 200 year old elms and oaks, in Jesmond Dene are threatened by the proposed Cradewell bypass. Newcastle EF! are planning to occupy trees to defend them against the bulldozers. Anyone with experience of tree sitting - advice and tips please! Baxter Wood, the ancient wood on the River Browney is also under threat from the proposed Durham bypass. Actions planned.

Oxleas Wood

10th May saw the coming together of a wide range of environmental groups under the banner of 'The Oxleas Alliance'. The Alliance is dedicated to defending Oxleas Wood, ASSI, and stopping the road that threatens it - the East London River Crossing (ELRC).

ELRC threatens the 8,000 year old woodland of Oxleas, neighbouring Shepherdles Wood, 240 homes and five other invaluable open spaces in South London.

The alliance consists of People Against the River Crossing (the local group), The Alliance Against Roadbuilding - ALARM UK, Friends of the Earth, Wwf UK, London Cycling Campaign, London Wildlife Trust, Royal Society for Nature Conservation and Earth First!

The Alliance is organising a 'Batt the Bulldozer' pledge. Already 2,500 people have pledged to be there if the bulldozers move in on Oxleas. The Alliance has a target of 10,000 pledges for the largest peaceful direct action ever!

Eleven days after the launch of the alliance the British Road Federation announced its plan to save Oxleas Wood. This is worth noting, as the BRF (a powerful lobby group whose membership includes thousands of companies such as Tarmac) has until recently extolled the necessity and importance of an ELRC through Oxleas. Contact PARC, 10 Greenwich, Chislehurst, Kent, BR7 6JE, or Brixton EF! - order pledge forms on 071 737 0100.

Yeovil A30

An alteration to the A30 at Yeovil is planned to route the road along the bank of the River Yeo to meet a Sainsbury in a greenfield at the foot of an Ancient Hill. South Somerset EF! are currently working with the community to lay foundations for the campaign which will get more and more radical as time goes on....

STOP PRESS....

Black Downs A303 public enquiry will take place for the whole of September and first two weeks of October, in Honiton. Details South Somerset EFI

Whatley Quarry

A campaign against the huge ARC quarry in the Mendips. "Mendip Hills not Mendip Holes!" Stone from the quarry is taken to Twyford Down as part of the government's plan to destroy Britain. An action in February successfully disrupted work for the day and resulted in 30 arrests - no charges were pressed and all are now suing for wrongful arrest and wrongful detention. Next action planned for 28th June. Contact South Somerset EFI tel: 0935 33493.

European Summit

21st - 22nd June The European Summit will be held in Copenhagen and protests are planned to raise environmental issues in the minds of the Eurocrats and generally cause mayhem and chaos, non-violently and peacefully of course. What do these Euro MPs do? Previous European actions have disrupted press conferences and got on the telly. Maybe it will sink in to these braindead politicians that we have a problem. Details of actions planned and travel arrangements etc from Brixton EF! on 071 737 0100.

This action update was
prepared in Oxford, and
printed in Manchester.

In future it is hoped that
it will be edited by different EF! groups
around the country. For the time being,
however, please send in any
news of actions large
or small to Oxford EF!

Please write with
comments, suggestions
about what others will
not be published at
least while the Action
Update is in its present
form, but comments
will be noted and hopefully
incorporated in
future editions....

The purpose of the
Action Update is to
report on non-violent
direct actions happening
around the country.
It is also designed to
publicise forthcoming
actions. This is for
entertainment purposes only and we
augment that as a result of
reading the action
update you sit around
and do absolutely nothing.
Just watch the
planet dying. More detail
on the issues involved
will be covered
by "The Dying Earth",
available from South Downs
EF!, c/o Prior House,
6 Tilbury Place,
Brighton BN2 2GY.

Thanks to everyone
who sent stuff in for
this issue. The next
issue will appear when
we have enough copy,
so send photos and
articles to Oxford EF!
NOW!

No compromise!
